50X1-HUM

1. A highly secret industrial plant has been constructed in the town of Papkeszi in the Lake Balaton area. Although it is known that the plant produces articles for military use, no details are available.
2. The importance of the installation was demonstrated in June 1956, when the old electric line was replaced with a new high-frequency system. Whenever it was necessary, in the course of the installation work, to interrupt the current, ministerial approval had to be obtained first.
